Clin Microbiol Infect. After passing the exam, candidates may order the hard copy which will reach you in 7-15 days at the indicated address. Our clients include students, academics, companies and individuals. If we need your specific skills and experience, and your sample edition meets our standards, we will send you a slightly longer trial edition (750 words) to allow us to properly evaluate your editing skills. Sputum samples, which can be collected by coughing and spitting, are painless and easy to obtain. You have a bachelor’s degree or higher from a respected university where English is the main language of instruction. Quality Guaranteed We defend the quality of our service. You can get a sputum sample by forcibly coughing into a container. Clinical performance of the Luminox NXTAG CoV extended panel for the detection of SARS-CoV-2 in nasopharyngeal specimens from patients with COVID-19 in Hong Kong. Please note that due to the volume of applications we receive, we are unfortunately unable to provide customized feedback to unsuccessful applicants. Although the World Health Organization (WHO) currently recommends nasopharyngeal swabs for COVID-19 testing, there are several different types of samples and swabs that can be used for diagnostic testing. Oropharyngeal swabs were the least accurate, with a positive rate of 43%. Doi:10.1148/radiol.2 020 200 432 Chen JH, Yip CC, Chan JF, et al. For the latest updates on COVID-19, visit our coronavirus news page. That is why all orders placed through our website are covered by the Cambridge Quality Guarantee. doi:10.1515/ccm-2020-0285 Lee TH, Lin RJ, Lin RTP, et al.
